Yours Today For Only \$39

Hello, I'm Stephen Leeb.

Thank you for reviewing my presentation.

5G is about to change the world in ways no other technology in history ever has.

And one company sits at the center of it all.

Today, the company's stock is available for close to \$5 a share.

But once the global 5G rollout reaches full steam in the second half of this year...

I expect the stock to skyrocket almost overnight...

And continue its upward trajectory for years to come.

Investors who make the right moves today will have an opportunity to build the kind of wealth they've only ever dreamed of.

I want that for you.

And to help you achieve it, I'm going to send you a FREE copy of:

The 5G Fix: How To Profit From The \$5 Stock That Fixes 5G's Fatal Flaw (Value \$79)

Inside, you'll discover:

- ✓ Details of the devastating flaw that could crush 5G technology before it ever gets off the ground.
- ✓ The company's next-level technology that allows 128 mmWave antennas to fit into a box you can literally hold in one hand.
- ✓ How the magnitude of the 5G rollout will secure the company's revenue streams (and stock price) well into the next decade and beyond.
- ✓ And, of course... the name of the company and my suggested BUY price range.

I want to deliver this report to you as soon as possible.

All you have to do is accept a risk-free trial membership in ***The Complete Investor*** by completing the form below.

When you do, you'll also receive two special bonus reports:

BONUS REPORT #1: *Secret Highway All-Stars: Five Plays That Will Make Early 5G Investors MILLIONS (Value \$59)*

The overlooked \$5 phenomenon isn't the only company who'll see earth-shattering returns during the 5G rollout.

Secret Highway All-Stars reveals five top-notch investment opportunities... ones that could catapult your bank account and your retirement lifestyle to new levels. With this report in hand, all it takes is a few keystrokes in your online brokerage account and you'll be set.

BONUS REPORT #2: *Why Security Stocks Will Reap Big Profits in 2019 (Value \$59)*

Faster data means more data. And more data means more ways for hackers and cyberterrorists to wreak havoc on our American way of life.

With demand for security and data safety increasing every day, this report reveals two extraordinary security stock opportunities with the potential to

add steady growth to your portfolio throughout the global 5G rollout and beyond.

You'll also receive 12 issues of *The Complete Investor* newsletter.

Each monthly issue contains my latest research, market commentary, portfolio summaries, and new wealth-building stock recommendations.

Every month of the year, I deliver a new breakthrough opportunity that could double, triple, or even 10x your initial investment.

In the past twenty-four months...

I've delivered 27 double and triple-digit wins

Here are just a few examples...

In each case, I sent members precise instructions on when to buy and when to sell...

They never had to second-guess the timing of their trades or let fear or greed force them into a bad decision.

Members just follow my simple instructions and watch their accounts grow.

Plus...

Members are also riding incredible open gains

In addition to the closed trades I showed you earlier, *The Complete Investor* members own positions in stocks we haven't yet sold because they're still climbing higher.

They include...

147% on a leading cybersecurity firm...

301% on a financial services leader...

170% on an energy generator...

261% on a defense contractor...

267% on a multi-state utility...

185% on an industrial energy producer...

Plus a whopping **491%** on an innovative bio-tech company.

If you'd taken a \$10,000 stake in each of these seven trades when I recommended them, today you'd be sitting on \$252,180... for an average return of over 260%.

But these examples are just the beginning...

Today, my portfolios contain **13 triple-digit and 45 double-digit open returns**.

Again, these are different than "closed trades" because we still own the stock and we're not yet ready to take profits.

Some members of ***The Complete Investor*** started out with small accounts and watched them grow to well over \$1 million.

Others started with seven-figure balances and used my recommendations to generate the kind of wealth that will change the lives of their children, grandchildren, and maybe even their great-grandchildren.

The moment you join ***The Complete Investor***, you'll have instant access to every last one of these winning recommendations...

I hold nothing back.

Plus, you'll receive dozens of brand-new recommendations in the coming months.

When you join ***The Complete Investor*** today, here's everything you'll receive:

Upgrade To A Two-Year Membership And Receive This Exclusive VIP Bonus

If you've decided *The Complete Investor* is right for you, then you'll love this special upgrade offer.

Select the two-year option when you complete the form below and receive this VIP report...

5G Rebates: How To Receive Up To \$1,840 A Year From Your Wireless Carrier

If you're like most Americans, there's a good chance you spend a small fortune on wireless fees each year.

Even with a "budget" cellular company, your family's fees can easily be \$200 or more each month... over \$2,400 a year.

Now, imagine opening your mailbox and finding a rebate check from your wireless provider.

Not just once... but four times a year. Every year.

Well, I've recently discovered a company that makes that possible.

Inside this bonus report, I reveal:

- ✓ The company that **charges hefty monthly fees to wireless companies** like T-Mobile, Sprint, AT&T, and Verizon for services they absolutely can't survive without.
- ✓ How the company's legal structure forces them to **pay out 90% of profits** every year.
- ✓ The factors that have enabled the company to **increase payouts over 150% in the past five years.**
- ✓ Plus... How to get your name on the distribution list with a **3-minute phone call.**

Even better... there's no limit to the size of the rebate checks you receive or the number of years you can receive them.

I love this company.

And once you start receiving regular rebate checks, I'm certain you will too.

If I sold this report separately, I'd have to charge \$99 for it.

After all, you can use it to pocket as much as \$2,184 a year... maybe more.

But this report is **yours for free** when you select the two-year membership option.

There's no better time to start than right now.

Enter your details in the form below...

And I'll rush you all the special reports and bonuses I showed you above.

But you've got to act right away...

I only have ~~500~~ **387** membership spots remaining today.
